## ABOUT US

Since its inception in 1999 Seaworld has been serving only the highest quality seafoods of all kinds across the GCC and international seafood industry.

What started as a small and humble processing company has been transformed into an industry leader with fully integrated facilities, production lines and vast distribution networks. For us seafood isn't just a business, it's who we are. An undying dedication which has been years in the making directed towards finding the best and smartest way to bring you the very best from around the world.

With fish recognized as an important part of a healthy diet, we can supply a range of quality products that suits today's needs. Seaworld is well known in the market mainly for its distribution of fresh, frozen and dried seafoods from which we have earned ourselves a reputation for outstanding quality and services to the customers. Whether you are looking for something new or enjoy the more traditional taste, we can offer diversity and guaranty support to all sectors no matter how large or small, enabling you to fulfil your and your customer needs.

With top of the line facilities, state of the art processing halls, large cold storage units alongside all of them being HACCP and ISO 22000: 2005 certified across UAE and other parts of the GCC. Seaworld is well equipped to undertake any and all orders no matter how big or small. With our highly experienced management we can ensure only the highest quality at all times no matter the quantity, sourcing as well as processing a product according to your need and specifications is also one of our specialties. All this along with storage and packaging is our guaranty of high customer satisfaction and brand loyalty.
