Takamol Packaging General Info

Takamol Packaging is the sales and service center for all packaging related factories in Hassani Group of Companies which consists of four manufacturing companies all in one facility located in DIP, Dubai, UAE.

Manufacturing is our fastest growing segment. Through our specialized companies we manufacture packaging products for various industries such as printing and packaging, corrugated cartons, metal cans and components and plastic packaging.

Our quality control and design team work alongside our production and printing team to ensure we always maintain the highest quality standards for each industry not only in raw material purchasing but also converting into a packaging product for you. The sales team is fully dedicated to service your needs and requirements from order enquiry and placement to delivery. With our fleet of light duty and heavy duty pickups, and heavy trailers, timely delivery is assured.

Takamol Packaging is your one-stop complete packaging solution.

GPP General Info

الخليج للطباعة والنشر ذمم
GPP GULF PRINTING & PUBLISHING LLC

GPP General Info

Established in 1996, GPP has been working with renowned FMCG companies providing quality products and services with a firm focus on folding box board cartons, labels and laminates.

GPP currently serves over 80 clients in more than 12 countries on a regular basis. Our client list comes from a variety of industries such as food, tobacco, tissue, cosmetic, perfume, soap, detergent, pharmaceutical, confectionary, biscuits, chocolates and other FMCG products.

GPP adheres to strict environmental, safety and hygiene standards. These policies supplement our commitment to quality control at all times. GPP has a state of the art imaging technology called Computer to Plate (CTP) system, Esko software, GMG colour management and

proofing systems and CIP3 closed loop technology. These investments help us to maintain the highest quality standards.

GPP is an ISO 9001:2015, HACCP certified and supplier member of Sedex. We are also a FSC (Forest Stewardship Council) member with the intention to not only help to reduce deforestation and forest products, but also to recognize the growing demand for environmentally friendly packaging products across the GCC and the world.

With active owner management involved in all aspects of business, GPP is continuously adding new machinery and investments in order to better provide and to maintain the highest quality and service standards for our clients across all segments of packaging.

GPP Product Portfolio

Offset Division

GPP's Offset division uses state of the art machinery for printing, die cutting, hot-foil stamping, embossing, folding and gluing, with major investments in Heidelberg & Bobst machinery for catering all folding carton needs for the industry.

With many different product requirements, GPP's Offset division uses a diverse range of boards and papers such as folding box board, ivory board, SBS, PE coated board, duplex grey back board, duplex white back board, label paper, duplex & E-flute combination with film lamination and many others depending on customer specifications and requirements.

We have the facility to produce special varnish effects such as drippoff (sand), tactile (rised), soft touch varnish and various other effects with our present machinery.

Following are kind of products produced in our Offset division:

1. Folding cartons in various sizes with lock bottom, crush lock, four corner and six corner pasting for various food and beverage industries.
2. French fries scoops, popcorn cups, 2-cup carriers, 4-cup carriers, 6-cup carriers, 4 corner trays and 6 corner trays.
3. Erect cartons such as boat trays, clam shell boxes, chip scoops and leak proof trays with lids.
4. Wrap around labels, neck and body labels and loose sheet labels.
5. Cigarette pack inners and outers for Nano, Super Slim, King Size, King Size Round Corner, Queen Size and Soft Pack by using specialised cigarette board and paper.
6. Tissue converting on our fully automated hygienic packing machines in various packings.

GPP Product Portfolio

Roto Gravure Division

GPP's Roto gravure division has surface and reverse printing with solvent based and solvent less lamination facility.

We are also equipped with finishing machines such as slitting and rewinding, pouch making and sleeve making machines.

Following are kind of products produced in our Roto gravure division:

1. Laminates in roll form
2. Laminates in pouch form such as:
 - a) Standup pouch with bottom gusset
 - b) Side gusset pouches
 - c) Center seal pouches
 - d) Zipper pouches with bottom or side gusset
3. Shrink sleeves in roll form or piece form
4. Aluminum foils in roll form or piece form

Flexo Division

GPP's Flexo division has surface and reverse printing with UV and waterbased inks on self-adhesive paper or plastic labels, aluminum foils and papers and boards with inline lamination and foiling options.

This division is also equipped with finishing lines such as slitter, rewinder, seaming machines for shrink sleeves, lid punching and tea tag punching machines.

Following are kind of products produced in our Flexo division:

1. Custom shaped self-adhesive labels in roll form
2. Shrink sleeves in roll form or piece form
3. Tea tags in roll form
4. Aluminum foils in roll form or piece form

CCI General Info

مصنع كراون للعلب دلم
CCI CROWN CANS INDUSTRY LLC

CCI General Info

Established in 1998, we are the first fully automatic commercial metal container manufacturing factory for the processed food industry in the UAE. We setup to fulfill the Hassani Group of Companies growing need for packing in metal containers.

Following is our facility details:

Sheeting Line: CCI has fully automated coil cutting lines which are capable to cut sheets in straight and scrolled form. We process Electrolytic Tinplate (ETP) and Tin Free Steel (TFS).

Pre-Press: The Pre-press section is responsible for the preparation of the required graphic designs for the cans and/or ends.

CCI has a state of the art imaging technology called Computer to Plate (CTP) system.

In this technology, the image created in a Desktop Publishing (DTP) application is output directly to a printing plate.

Plates are produced in less time with high quality printing (sharpness and detail) with more consistency.

Printing Line: We print metal can bodies and ends for food cans and general line cans for the paint, chemical, thinner, oil and lubricant industries.

Body Forming Line: CCI has multiple lines for 3-Piece and 2-Piece DRD cans in various diameters, sizes and shapes.

Closure Line: CCI has various sheet-feed and strip-feed press machines producing different types of components and closures.

CCI Product Portfolio

Easy Open Ends

Easy Open Ends: Ø52, Ø63, Ø65, Ø73, Ø83 and Ø99

Penny Lever Ends

Penny Lever Ends: Ø73, Ø83, Ø99, Ø127, Ø153 and Ø189

Sanitary Ends

Sanitary Ends: Ø50, Ø52, Ø60, Ø63, Ø65, Ø70, Ø73, Ø83, Ø96, Ø99, Ø105, Ø127, Ø140, Ø153, Ø165, Ø175 and Ø189. Also we produce various bottoms with special ends such as clinched bottoms, 4L rectangular can top and bottom, 10L and 18L square can top and bottom, lug lids for paint cans and DT components.

Peel Off Ends

Peel Off Ends: Ø99, Ø127, Ø153 and Ø189

CCI Product Portfolio

Twist Off Caps

CCI has state of the art lines for the production of twist off caps. We produce various diameters from Ø38, Ø43, Ø58, Ø63, Ø66 and Ø82 suitable for sterilization and pasteurization.

2-Piece Can Line

CCI has various fully automated DRD lines for producing 2-piece food cans such as:

Ø52 x 38 mm Ø73 x 35 mm Ø73 x 50 mm Ø83 x 33 mm

Ø83 x 38 mm Ø83 x 40 mm Ø83 x 43 mm

We also have available complete automatic lines for quarter club cans.

3-Piece Can Line

10L and 18L square cans

CCI is producing a wide range of food cans from Ø52, Ø63, Ø65, Ø73, Ø83, Ø99, Ø127, Ø140, Ø153, Ø189.

Fancy cans

CCI also has fully automated lines for 10L and 18L edible oil cans, fancy cans for biscuits, sweets and dates Ø190 and Ø265. Also we produce cans such as Ø165 (1 US Gal), Ø175 (1 US Gal), 4L and 5L rectangular, Ø285 (10L/15L/20L/25L) pail cans for paint, chemical, thinner, oil and lubricant industries.

Rectangular and pail cans

TMP General Info

مصنع تكنومان للبلاستيك ذم
TECHNOMAN PLASTIC FACTORY LLC

TMP General Info

Plastic packaging is today one of the most widely used packaging material in almost all industries both food and non-food. TMP serves all industries where there is a requirement for plastic containers and plastic parts. However, its major focus has remained in food, lubricant, cleaning and detergent, chemical and cosmetic industries with currently over 100 customers.

Currently, TMP has blow molding for PET (single stage and double stage), HDPE and PP.

We also have a wide range of injection molding machines starting from capacities of 125T to 1,200T. Our injection machines have the facilities to operate not only IML with fully automated and robotic systems, but also we have various machines for PET preforms and bottles (small neck and wide mouth).

TMP is also producing various industry standard sizes of styrofoam boxes and crates across various industries.

We also produce a wide range of disposable plastic products such as cutlery and straws in various sizes and specifications to suite the customers' requirement.

TMP is also capable of printing on plastic containers using fully automatic 4-color UV screen printing machines. Semi-auto silk screen printing machines are also available for various products.

TMP has compression molding machines for mass production of caps, along with wad insertion facilities as well.

TMP Product Portfolio

TMP is supported by Technoman Industrial Machinery Manufacturing (TMI), a member of Hassani Group of Companies that boasts a state of the art workshop and R&D center that produces and services molds and dies for all kinds of plastic packaging products. TMI has the technical know-how for designing thin wall as well as normal wall thickness molds along with hot runner and cold runner systems. This support enables TMP to maintain a constant quality and to achieve the highest standards for all of its products.

With over 500 molds, TMP offers many plastic products such as containers and jars, bottles, caps and closures, buckets, preforms and lids.
